

**AUTHORIZED DISPOSAL FACILITIES FOR STORM DEBRIS  
IN CLINTON AND ESSEX COUNTIES**

**Please contact NYSDEC Divisions of Materials Management in  
Warrensburg (623-1230/1233) or Ray Brook (897-1253)  
with questions or requests for other information.**

**GENERAL**

Storm debris consisting of wood material, such as logs, stumps and brush, can generally be disposed of at three types of facilities: (1) exempt sites; (2) registered facilities; (3) permitted facilities. This type of debris is referred to as land clearing debris or "LCD" (see definition below). Construction and demolition ("C&D") debris resulting from construction, repair or demolition of structures can only be disposed of at a permitted facility. Additional information on handling, processing and disposal of storm debris can be found at:  
**<http://www.dec.ny.gov/regulations/8751.html>**

**EXEMPT SITES**

A landfill for the disposal of trees, stumps and wood chips generated from these materials is exempt when origin and disposal of such waste occur on properties under the same ownership or control [6 NYCRR Part 360-7.1(b)(1)(ii)]. This means that a municipality could collect LCD-type storm debris from highways and highway right-of-ways owned or controlled by those municipalities, and dispose of that material on other property owned by the municipality. Storm debris generated from privately owned property could not be disposed at these sites.

**REGISTERED FACILITIES**

Landfills three acres or less in size that accept only LCD material are eligible for registration. Registering a new LCD site entails submitting a one-page registration form with a location map for validation by the Department. Certain operational and closure conditions apply. A registration form for new land clearing debris landfills is attached. All currently registered LCD sites in Essex and Clinton Counties are listed below. The facility operator should be contacted prior to hauling any waste to a facility, since acceptance of waste is at the discretion of the operator. Please contact the NYSDEC Division of Materials Management at the above numbers for further information.

**Clinton County**

**Cole LCD Landfill**

Clinton Mills Rd.  
Churubusco, NY  
297-6969  
Contact: Richard Cole

**Flat Rock Road LCD Landfill**

Flat Rock Road  
Schuyler Falls, NY  
561-0518  
Contact: Douglas Rushford

**East Murtagh Hill Road LCD Landfill**

Murtagh Hill Road  
Altona, NY  
563-4188  
Contact: George Barber

**Gordon Pratt LCD Landfill**

West Church Street  
Chazy, NY  
493-2160  
Contact: Gordon Pratt

**Rabideau Sand & Gravel LCD Landfill**

Emery Road  
Mooers Forks, NY  
236-7125  
Contact: L&S Rabideau & Co., Inc.

**Shelters Pit LCD Landfill**

Recore Road  
Altona, NY  
563-3034  
Contact: Harold Way

**Reeves/Norco LCD Landfill**

Reeves Lane  
Plattsburgh, NY  
563-7731  
Contact: Jon Ruff

**Town of Ausable LCD Landfill**

Arnold Hill Road  
Ausable, NY  
834-9052  
Contact: Sheldon Boynton

**Essex County****Glomann LCD Landfill**

29 Glomann Road  
Keeseville, NY  
834-5037  
Contact: John Glomann

**Green Valley LCD Landfill**

Route 3 – Bloomingdale Road  
St. Armand, NY  
891-1940  
Contact: Carolyn Trudeau

**Newcomb LCD Landfill**

Hudson River Drive  
Newcomb, NY  
582-2311  
Contact: Town of Newcomb

**West's Clay Pit LCD Landfill**

County Route 128  
Willsboro, NY  
963-7235  
Contact: Doug West

**Torrington Industries LCD Landfill**

Route 190  
Plattsburgh, NY  
793-9608  
Contact: Torrington Industries

**X-Plo LCD Landfill**

Kelly Road  
Plattsburgh, NY  
561-7810  
Contact: Don Jerry – X-Plo, Inc.

**Trudeau LCD Landfill**

19 Manor Drive  
Beekmantown, NY  
563-6975  
Contact: Helen Trudeau

**Harlow Excavating LCD Landfill**

4525 Cascade Road  
North Elba, NY  
523-2307  
Contact: Billie Yando

**Town of Minerva LCD Landfill**

County Route 37  
Minerva, NY  
251-2869  
Contact: Town of Minerva

**Grasshopper Farm LCD Landfill**

Route 22  
Chesterfield, NY  
834-4617  
Contact: Gary Duprey

**L&R Landscaping LCD Landfill**

Fuller Road  
Peru, NY  
566-0471  
Contact: Todd Deyo

## PERMITTED FACILITIES

1. **Clinton County Landfill**  
Sand Road  
Morrisonville, NY  
563-5514  
Contact: Craig Squier

The Clinton County landfill may accept all types of solid waste including C&D debris and land clearing debris.

2. **Town of North Elba C&D Landfill**  
74 Recycle Circle Lane  
Lake Placid, NY  
523-9081  
Contact: Shannon Porter

The Town of North Elba C&D landfill may accept C&D debris. The facility does not currently accept land clearing debris.

## DEFINITIONS

Land Clearing Debris (LCD): vegetative matter, soil and rock resulting from activities such as land clearing and grubbing, utility line maintenance or seasonal or storm-related cleanup such as trees, stumps, brush and leaves and including wood chips generated from these materials. Land clearing debris does not include yard waste which has been collected at the curbside.

\*land clearing debris does not include lumber, plywood, treated wood, painted wood, etc.

Construction and Demolition (C&D) Debris: uncontaminated solid waste resulting from the construction, remodeling, repair and demolition of utilities, structures and roads; and uncontaminated solid waste resulting from land clearing. Such waste includes, but is not limited to bricks, concrete and other masonry materials, soil, rock, wood (including painted, treated and coated wood and wood products), land clearing debris, wall coverings, plaster, drywall, plumbing fixtures, nonasbestos insulation, roofing shingles and other roof coverings, asphaltic pavement, glass, plastics that are not sealed in a manner that conceals other wastes, empty buckets ten gallons or less in size and having no more than one inch of residue remaining on the bottom, electrical wiring and components containing no hazardous liquids, and pipe and metals that are incidental to any of the above.

**Solid waste that is not C&D debris** (even if resulting from the construction, remodeling, repair and demolition of utilities, structures and roads and land clearing) includes, but is not limited to asbestos waste, garbage, corrugated container board, electrical fixtures containing hazardous liquids such as fluorescent light ballasts or transformers, fluorescent lights, carpeting, furniture, appliances, tires, drums, containers greater than ten gallons in size, any containers having more than one inch of residue remaining on the bottom and fuel tanks. Specifically excluded from the definition of construction and demolition debris is solid waste (including what otherwise would be construction and demolition debris) resulting from any processing technique, other than that employed at a department-approved C&D debris processing facility, that renders individual waste components unrecognizable, such as pulverizing or shredding.
