

Short Report

Collaborative-Essex County Health Partners

Essex County Health Department, Public Health Unit
University of Vermont Health Network, Elizabethtown Community Hospital
Inter-Lakes Health, Moses Ludington Hospital | Adirondack Health, Adirondack Medical Center

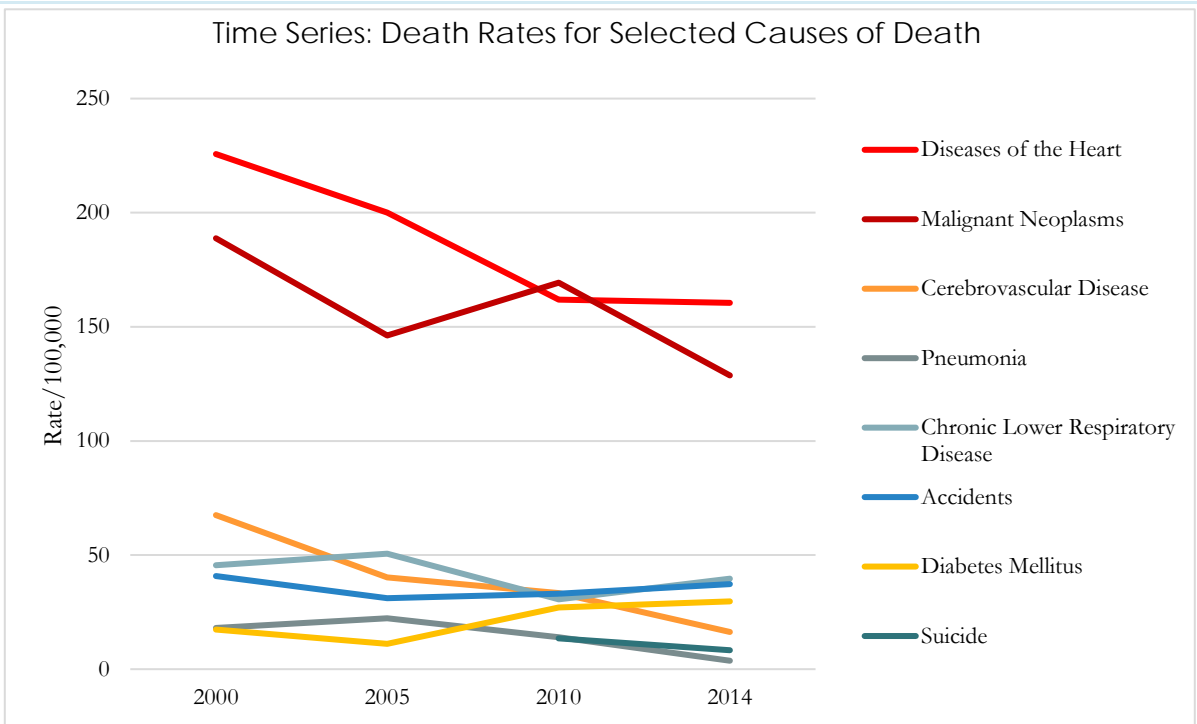

Purpose

Qualitative & quantitative analysis of multiple local, state & national sources and indicators.
Ongoing & systematic process of examining the health of a population to

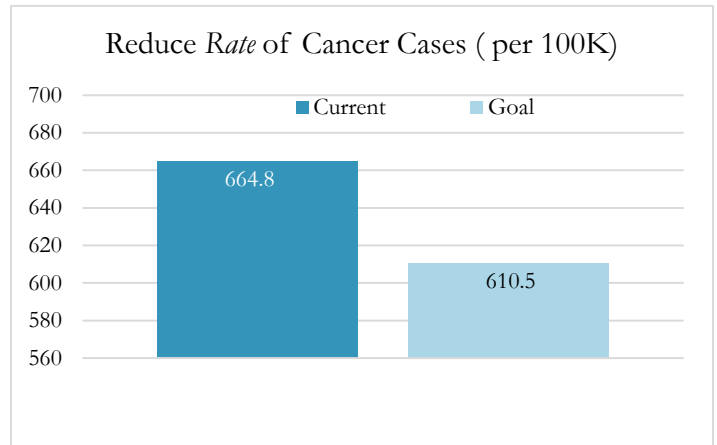

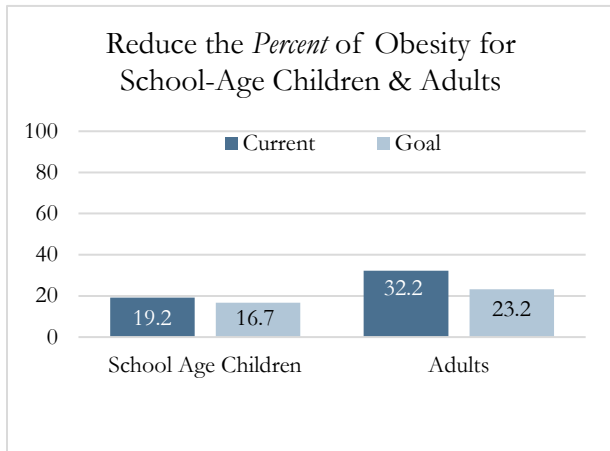

- *determine* the overall health and disease-specific health of the community,
- *assess* underlying causes or conditions detracting from health or contributing to disease,
- *plan* for resource utilization to address health needs, and
- *implement* and *evaluate* targeted initiatives to improve population health.

ASSESSMENT Outcome Data Summary

PLAN Goals

Reduce **obesity** to meet the NYS Prevention Agenda benchmark and reduce morbidity & mortality due to **chronic conditions** to be less than Upstate NY comparisons.
