**Please note the following change to the SPECIFICATIONS:**

On notes drawing N-1 under Maintenance and Traffic Protection note 3, it states that temporary traffic signals are by owner at each end of the project detour. This is changed to temporary traffic signals are by the contractor at each end of the project detour. Solar powered signals are allowable as there is no utility pole right at this location. If the signals need generator support at times, it is the responsibility of the contractor to provide it.
