October 2012

Press Release

The Essex County Real Property Tax Service Office is pleased to announce the availability of an enhanced Image Mate Online service. The service is designed to accommodate the higher level information needs of the professional real property, banking and legal communities.

This fee based service should prove to be a valuable resource for abstractors, appraisers, surveyors, attorneys, banks, real estate and utility companies. No longer will they have to make a trip to the County seat in Elizabethtown to get a copy of a tax map or more frequently updated sales information. All of this information will only be a click away with 24x7 access. Fees for this service can be purchased on a monthly or yearly basis. You can find a fee schedule and registration form on the Essex County, Real Property and Image Mate online websites.

The migration to an online subscription is a natural progression for the RPTS office. In 2011 Essex County became one of four Pilot Counties in New York for the 1-part RP5217 form that is now being implemented in several counties across the state. Real Property and the County Clerk's office have worked very closely to ensure that this pilot project was a success and have had interest from several other counties to come see how this project has worked here.
